2021 Car Show Report: We currently have 54 cars registered for our October Show. Dottie, Tom and I met with the PPD. There is a new law on the books in regard to Towns/Cities not being allowed to gift services. We will have to figure out what this will mean to certain car show activities. I have an appointment with Parks/Recreation on July 27th. We currently have \$6,000 for sponsorships. Ken Michaels stated that in 2019 the Town signed on as a co-sponsor for the car show and waived fees. Paul will check to see if that is possible for 2021.

Car Show Activities: Tim Deegan/Collector Car Appreciation Day is coming up on July 9th/sponsored by Sema Network Association. Our club is meeting Showlow's club in Heber. They are eating at the Wild Women Saloon. We are eating at the Red Onion and we will meet up in the parking lot of the Saloon. Pictures can be posted on the Sema Website afterward. Flagstaff's club has reached out to our Club.

*July 24th is the Snowflake Car Show, I have some registration forms up here if anyone is interested.

*August 28th - 8 am -3 pm - Route 66 Car Club of Flagstaff 2nd Annual Charity Car Show "Thunder Over Flagstaff" at the Pullman Airport located on the southside of town before you reach Flagstaff) off of I-17 Northbound. Register at www.route66carclub.org

Since Sue couldn't be here I am going to show you the woman's shirt that Black and Tan has available for club shirts. It is a lightweight v-neck, has long sleeves and comes in grey, black and white. Please come take a look at it and if you are interested you can order one from Black and Tan. Our working car shirts are yellow.

Old/New Business from the floor: New news/Steve Johnson stated, what a great car club we have! I am so impressed by all of the folks who offered their homes to those of us who were evacuated by the fire. You know who you are and I sincerely thank you!!

Tech Tips: John Cailey and Larry Bertram both offered up some time and stress saving tips. John shared the name of Y and Z's Wiring located in Redlands, Ca that produce custom wiring kits that match original braided wiring and connection plugs. Larry left some special sticky tape for anyone that could use it (only comes in a 100 ft. roll) to help hold bolts in place.
